Dear Mr. Rowley,

This is in response to your letter of June 1, 2000 to Mr. William Pappas. For informational purposes, Mr. Pappas is not president of Cambrilic Natural Stone, LLC, we are a Limited Liability Company, without officers, Mr. Pappas is a Member and Manager. Mr. Pappas is still out of town, hence my response to your letter.

The reason I am responding now is because I have taken the time your requested in order to review the EA Draft, and at this time do not have any comments. I find the draft to be well done, and at this time fail to add or delete any concepts. that may be substantive.

Your letter to me dated May 23, 2000, stated in part, " We anticipate completing the Environmental Assessment by June 2, 2000, sooner, if you provide the above mentioned map in a timely manner."

I thought I covered the information you requested in my letter to you of May 29, 2000. Concerning your letter of June 1, 2000, let me incorporate some of your thoughts in that letter, to the benefit, hopefully, of all.

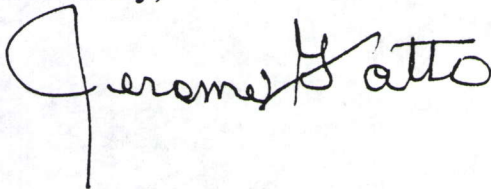

We request you approve our mining plan now, with the understanding that we will submit a more detailed plan, once we have been able to open up the quarry enough to determine a logical mining sequence.

We will limit our activities to the areas delineated on the enclosed map, attached to your letter of June 1, 2000.

In our meeting with Ms. Wysong on May 12, 2000, she stated she expected the EA to be completed by June 2, 2000, so we could begin operations. Now as I examine the chronology of just this Plan of Operation, we are again, getting into each new indice that has to be resolved, and time passes.

As I stated to you in my letter of May 29, 2000, we will follow your advice and counsel. Please approve this plan, subject to the conditions discussed herein, so that we may proceed. We are going to loose half the summer months, if we do not begin now.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jerome C. Gatto". The signature is stylized with a large, looped initial "J" and a long, sweeping underline that extends across the name.
